

ECDIS Course

Target group

This course is designated for candidates for certification as officers in charge of a navigational watch and for experienced nautical officers and other persons with responsible duties in navigation work.

Admission requirements

Participants should have experience in performing chart work and should be able to practice all usual tasks concerning standard navigational procedures and equipment.

Course content

The course is based on the IMO model course 1.27 (The Operational Use of Electronic Chart Display and Information Systems). In the ECDIS course we will be using the book: "The Electronic Chart" from (Hecht, Berking, Buttgenbach, Jonas, Alexander).

Course participant is after completion of the course able to:

- Operate and understand the ECDIS equipment.
- Use the navigation functions from the ECDIS equipment.
- Selecting and viewing relevant information and making the right decisions, also when the ECDIS system is not working properly.
- Recognize the restrictions from ECDIS systems.
- Explain and understand why the ECDIS system is not the sole navigation system used on vessels.

Course duration

3 days.

Course dates

See for course dates the course schedule or our website: www.miwb.nl.

Certification

Upon successful completion of the course a certificate will be issued certifying that the holder meets or exceeds the level of knowledge and competence according to Table A-II/1 of the STCW code.

All our simulators and the organization are DNV approved.

Tuition fee

€ 575,- (incl. VAT).
